

The Oak Hollow Subdivision Meeting 6-16-2001

The meeting was called to order by Pres. David McCorquodale at 10 am. Seven residents were present.

The minutes of the last meeting were accepted.

Treasurer Mike Potter reported that the pump, pressure port, timer, and sprinkler heads of the front entrance sprinkler system had to be and was replaced. Cost was \$1,600.00. All home owner's fees have been paid.

The Oviedo H2O Dept had been contacted regarding the excessive H2O ing of the new unoccupied houses in our subdivision. The response was ambiguous and unsatisfactory. The excessive H2O ing has been corrected.

Mike Potter will tell Rudy, who mows the front entrance, to mow weeds in the Tot Lot more frequently.

David McCorquodale pursued the suggestion at April's meeting that we build a barbecue pit in the Tot Lot. An estimate of \$20 to \$25,000.00 was given by one of the masons contacted. End of discussion.

Seven residents present expressed an interest in buying several fiber glass picnic tables with metal supports for the Tot Lot.

Mike Potter will check on prices at Cosco's and Mike Bosely will do the same at Sam's Club.

A date will be set for the Tot Lot clean up with the extent of the clean up clearly defined.

Dawna Case suggested the sidewalk leading to the Tot Lot be pressure cleaned when the front side walk is cleaned.

A committee of Cami Hauser and Dawna Case will organize a subdivision picnic-possibly just before school restarts in August. The residents present rejected having a picnic on a national holiday.

Vandalism (possibly perpetrated by middle school children waiting for the school bus) to the front entrance sign and light fixture was discussed. Mike Potter will call the School Board to request that the bus stop be changed to the West side of Pine Street.

Mike Potter will also consult with the Oviedo City Hall about erecting a stop sign at the intersection of Lady Lynn Ct. and Kelly Green St. in an effort to slow down speeding vehicles.

Respectfully submitted by R.G. Stevens

P.S.

The Tot Lot Clean up will be on July 14th 8⁰⁰ AM

We would appreciate your participation.
